Background:

This collection came to the DAR Library from the National Genealogical Society in 2004. Previous to this, it was at the Genealogical Society of Utah, where it was microfilmed at the Family History Library.

Scope and Content:

This is a diverse collection covering many different topics and surnames. There does not seem to be an order or unifying theme to this collection, it seems to be a vertical file collection, filled with small manuscripts, short family histories, typescripts of records, and research aids. Most of the files are labeled with a family name.

Subject Terms:

Hoag family – Bible records
